OFFICE OF THE SURGEON GENERAL
WITH THE GOVERNMENT OF BOMBAY :

Bombay, 1st May 1940.

From

MAJOR-GENERAL H. C. BUCKLEY, M.D.,
F.R.C.S.E., K.H.P., I.M.S., J.P.,
Surgeon-General with the Government of Bombay,
Bombay No. 1 ;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Subject.—Annual Report on Civil Hospitals and Dispensaries for the year 1939.

Sir,

I have the honour to submit for the information of Government the Annual Report on Civil Hospitals and Dispensaries for the year 1939.

BUILDINGS.

2. *Major Works.*—During the year under report no new major work was undertaken.

3. *Minor Works.*—Minor works representing additions and alterations and improvements to the buildings of Government hospitals and dispensaries were carried out at a cost of Rs. 41,312 from the provision in the Surgeon-General's Discretionary Grant for minor works. Some of the important minor works carried out are mentioned below :—

	Estimated cost. Rs.
(1) Providing proper drainage at the Civil Hospital, Dharwar	3,460
(2) Building a compound wall at the Civil Hospital, Ahmednagar	4,300
(3) Additions and alterations to the Dhankorbai Maternity Ward in the compound of the Civil Hospital, Nasik	4,325
(4) Constructing a labour room in the European Section of the maternity ward in the Sassoon Hospitals, Poona	5,479

4. *General.*—(*i*) The buildings of the various Government hospitals and dispensaries have been kept in good condition, the necessary repairs having been carried out by the Public Works Department.

(*ii*) The proposal to construct a three-storeyed building to accommodate the Out-patient Department, a laboratory, quarters for Nurses and a Hostel for Medical students in the compound of the Cama and Albless Hospitals, Bombay, at an estimated cost of Rs. 1,67,000 was originally approved by Government. The work is to be financed from the contribution of Rs. 84,000 from the Cama Hospital Jubilee Fund and the sale proceeds of the land and building of the Jaffer Suleman Dispensary. Due to rise in the prices of building materials as a result of the outbreak of war, Government decided to construct a building with the ground and the first floors only, at an estimated cost of Rs. 1,63,122. The work has accordingly been started and is in progress. The tenders received for this work have, however, yielded a saving of about Rs. 30,000 in the estimated cost of Rs. 1,63,122. This saving would be sufficient to provide the second floor as per original scheme and a proposal to revert to the original scheme of constructing a three-storeyed building was accordingly submitted for approval of Government and the same has been sanctioned by them.

(*iii*) The works of extension of the Bai Motlibai Hospital and of conversion of the Dwarkadas Lallubhai buildings into a female Out-patients' Department for the Bai Motlibai and Petit Hospitals, Bombay, were completed and the buildings were opened during the year under report.

(*iv*) The scheme about the shifting of the Civil Hospital, Ahmedabad and the B. J. Medical School, Ahmedabad, to a new site is still under consideration.

Bombay Hospitals.

5. *J. J. Group of Hospitals.*—The Clinical Units system introduced at the J. J. Hospital, Sir C. J. Ophthalmic Hospital and the Bai Motlibai and Sir D. M. Petit Hospitals has worked very satisfactorily. The clinical teaching in the wards goes on regularly and efficiently.

6. *Bai Motlibai and Sir D. M. Petit Hospitals.*—The year 1939 has been an important one in the history of these Hospitals, the principal event being the opening of the extensions by His Excellency the Governor of Bombay, on 26th July 1939. The new wards have proved very popular. The Clinical Lecture Theatre has proved even more useful than was expected and the adjoining Museum and staff room have put the facilities for teaching Midwifery here on an altogether better footing. The re-constructed Dwarkadas Lallubhai building was opened and the Gynæcological, ante-natal and post-natal out-patient clinics were transferred there resulting in great gain in comfort and ease of control, the whole unit comprising the Out-patients' Department, the Obstetrical hospital and the Gynæcological hospital being grouped together which greatly facilitates the smooth working of each. An Endocrine clinic has also been started during the year.

7. *G. T. Hospital, Bombay.*—An amount of Rs. 24,766 has been sanctioned for the purchase of Deep Therapy Apparatus for this Hospital.

St. George's Hospital, Bombay.—The X-Ray apparatus at this Hospital being an old one, Government was requested to sanction the purchase of a new apparatus at a cost of Rs. 18,500. The proposal has been sanctioned in 1940.

8. *Cama and Albless Hospitals, Bombay.*—In connection with the re-organisation of staff at these hospitals which has been sanctioned with effect from 1st December 1939, the following posts have been abolished :—

(*i*) Assistant Medical Officer (General Provincial Service) ;
(*ii*) Resident Medical Officer (do. do. do.) ;
(*iii*) Woman S.M.S. Officer ;

and the following new posts have been created :—

(*i*) Six House-Surgeons on Rs. 60 per mensem each (in lieu of the five posts of House-Surgeons—4 on a pay of Rs. 60 per mensem each and one on a pay of Rs. 50 per mensem previously existing).

(*ii*) Two Resident Obstetric and Gynæcological Assistants on a pay of Rs. 100 per mensem each.

(*iii*) One Registrar on a pay of Rs. 150 per mensem.

(*iv*) Resident Medical Officer in the B.M.S., Class II (Women's Branch), scale of pay with Bombay local allowance and Rs. 50 per mensem as compensatory allowance for loss of private practice.

The staff has been re-organised so as to provide for a number of smaller posts from whom, after post-graduate qualification, the honorary staff can with advantage be chosen.

Mofussil Hospitals.

9. *Vithal Sayana Civil Hospital, Thana.*—Diwan Bahadur N. V. Sayana, a member of the Advisory Committee and the donor of the Vithal Sayana Civil Hospital has very kindly presented to this hospital a refrigerator and has also donated Rs. 250 towards the purchase of beds for children.

10. *Civil Hospital, Nasik.*—The Committee of the King-Emperor Anti-Tuberculosis Fund, Nasik District, has allotted Rs. 5,000 towards the cost of installation of an X-Ray apparatus at this Hospital.

11. *Civil Hospital, Godhra.*—The X-Ray apparatus at the Civil Hospital, Godhra, could not be installed during the year owing to certain unavoidable difficulties. The apparatus will, however, be installed definitely in 1940.

General.

12. *Iron Lungs.*—In connection with Lord Nuffield's announcement of a gift of an "Iron Lung" to hospitals and other institutions in the Empire, recommendations were called for by the High Commissioner

for India from the Provincial Governments. The following hospitals have been recommended by the Government of Bombay for the supply of the " Iron Lung " :—

13. *Indian Systems of Medicine.*—(1) Parts I and II of the Bombay Medical Practitioners' Act, 1938, have been brought into force from 4th November 1939, and according to Section 1 (*3*) of the Act, Part III will come into force in all municipal, cantonment and notified areas in the Province from 4th November 1941 and in all other areas from 4th November 1944. Under Section 32 of the Act no unregistered medical practitioner or a practitioner not borne on the list maintained under Section 18 will be allowed to practise after the above dates in the areas concerned. The " Board of Indian Systems of Medicine " as required by Section 3 of the Act has been constituted and has started functioning.

(2) Ten scholarships of Rs. 25 per mensem each for the study of Unani System of Medicine at the A. & U. Tibbi College, Delhi, have been sanctioned by Government from 1st August 1939. Eight students are at present taking advantage of the scheme.

(3) A donation of Rs. 3½ lacs for the construction of an Ayurvedic College and Ayurvedic Hospital in Bombay, generously offered by Sheth Anandilal Podar, has been accepted by Government and further work in that connection is proceeding.

14. *Leprosy Officer.*—The post of the Leprosy Officer for the Province of Bombay was filled in. The Officer is touring in the Districts and it is hoped that he will soon be able to organise and co-ordinate efforts towards prevention of the spread of leprosy in general.

15. The District Council established for the District of Sholapur, under the British Empire Leprosy Relief Association, has decided to take over and maintain the Leper Hospital at Sholapur, so long maintained by the Mission to Lepers.

16. *King-Emperor Anti-Tuberculosis Fund.*—Several proposals regarding utilisation of the returnable amount of the King-Emperor Anti-Tuberculosis Fund are being considered by the several District Committees in consultation with the Bombay Province Anti-Tuberculosis Association. As for the District of Nasik the Association has approved of the proposal to spend the amount for the purchase of an X-ray apparatus for the Civil Hospital, Nasik.

17. The formation of the Blood Transfusion Service has now been thoroughly organised and it is being increasingly availed of.

Rural Medical Relief.

18. *Appointments of Subsidised Medical Practitioners.*—Of the 206 centres sanctioned under this scheme (6 in 1936 and 200 in 1938), 163 centres have been opened and are functioning. Of these 163 centres, 60 are Allopathic, 99 are Ayurvedic and 4 are Unani. The appointments of Subsidised Medical Practitioners to the remaining centres are in progress. The following table shows the number of subsidised dispensaries and the total number of patients treated in them in the various districts in this Province during the year 1939 :—

With a view to extend this scheme further, Government has sanctioned 250 additional centres during the year under report. Of this number, however, only 128 centres will be opened for the present as funds are not available with Government for opening all the 250 centres.

19. *Appointment of Nurse-Midwives.*—The total number of appointments under this scheme has been limited to 81. Of this number, only 46 appointments have so far been made at the various District Local Board Dispensaries in the following districts:—

Surat	3
Kaira	7
Broach	2
Panch Mahals	3
Ahmedabad	4
Poona	3
Ahmednagar	4
West Khandesh	2
Satara	2
Belgaum	5
Bijapur	1
Thana	3
Alibag	4
Ratnagiri	2
Karwar	1
	46

Of these, five are fully qualified nurse-midwives and the rest only midwives. In spite of the fact that even qualified midwives are taken up for these posts, the response is rather poor. This is partly due to the paucity of qualified candidates and partly to their reluctance to go to rural areas. The scheme is otherwise reported to be working satisfactorily.

20. *Anti-Tuberculosis Clinics.*—The six clinics opened at the Civil Hospitals of Ahmedabad, Surat, Poona, Sholapur, Nasik and Belgaum are working satisfactorily. The question of opening more clinics is under consideration.

As a means of rendering assistance to the campaign against the spread of tuberculosis, Government has decided that all Government Civil Hospitals in the mofussil should undertake, free of charge and as part of their ordinary work, the microscopic examination for tubercle bacilli of a smear of sputum received from any registered medical practitioner in the district concerned.

Statement A.

21. The total number of institutions open at the beginning of the year under report was 450. During the year 161 new dispensaries were opened and the names of four institutions were added to the report as their returns were received only from this year even though they were old ones and six were closed. The number of institutions open on 31st December 1939 were 609.

Statement B.

22. The following table shows the distribution of Medical Officers (including Honorary Medical Officers), Nurses, Midwives, Dais and compounders in the various classes of hospitals and dispensaries during the year under report and the previous year :—

Class of hospitals.	Medical Officers.	Nurses.	Midwives.	Dais.	Compounders.
Class I—State-Public ..	358	389	20	2	70
Class II—State-Special ..	13	11	1	..	6
Class III—Local and Municipal Funds.	410	232	145	30	360
Class IV—Private-aided ..	41	30	11	8	23
Class V—Private Non-aided .	152	170	79	27	94
Class VI—Railway ..	74	26	1	1	55
Class VII—Subsidised ..	163	..	..	..	..
Total .. 1939 ..	1,211	858	257	68	608
Total .. 1938 ..	1,065	820	221	69	600

It may be seen from the above figures that there is an appreciable increase in the number of medical officers. This increase is mainly due to the opening of 158 new subsidised dispensaries in 1939.

Statement C.

23. The subjoined table shows the number of in-door and out-door patients treated in the State-Public, Local and Municipal Funds and Private-aided Hospitals and Dispensaries of the Bombay Province,

Statement D.

24. The total number of patients treated during the year 1939 in all classes of hospitals and dispensaries (except the subsidised dispensaries) was 4,596,454 with 10,330 deaths as against 4,337,086 with 10,736 deaths in the year 1938.

The sub-joined table shows the principal diseases among the patients treated and the mortality among inpatients :—

Enteric Fever	7,751	394	7,313	265

Epidemics.

25. The following diseases were in epidemic forms in some parts of the districts shown against them :—

Malaria ..	.. Bombay.
Plague ..	.. Karwar and Belgaum.
Small-pox ..	.. East Khandesh, Broach and Panchmahals and Ahmedabad.
Cholera ..	.. Sholapur and East Khandesh.
Cerebro-spinal Meningitis	.. Ahmedabad.
Enteric Fever ..	.. Karwar.

Necessary steps were taken to check the epidemics.

Statement E.

26. The total number of surgical operations performed during the year under report was 1,64,476 against 1,56,982 in 1938. These were performed on 1,57,169 persons with a mortality of 0·6 per cent. as compared with 151, 193 persons with a mortality of 0·7 per cent. in 1938.

Statement F.

27. The following table shows the receipts and expenditure on account of the maintenance of the State-Public, Local and Municipal Funds and Private-aided Hospitals and Dispensaries during the year 1939 :—

Miscellaneous receipts including hospital fees charitable contributions, etc. ..	7,57,508	7,73,423
Total ..	61,22,021	59,61,948

The apparent decrease in the receipts is due to the fact that the cash balance for 1938 was inclusive of investments and deposits while for 1939, it is shown exclusive of these as per instructions from the Director-General, Indian Medical Service.

	Expenditure.

HAFFKINE INSTITUTE, BOMBAY.

During the year 1939, the Institute continued to function as:—

(*a*) a centre for manufacture of plague vaccine for the whole of India, typhoid and cholera vaccines for the Bombay Province,

(*b*) the provincial laboratory for the Bombay Province,

(c) centre for the manufacture of anti-rabic vaccine for the Bombay Province and the adjoining areas and treatment centre for the Bombay City,

and in addition, carried out research work on plague and other subjects largely with the assistance of the Indian Research Fund Association.

2. *Sera and Vaccines.*—The following quantities of sera and vaccines were issued by the Institute during the year 1939 :—

Vaccines.	Quantity.
Plague vaccine	962,509 doses.
Cholera vaccine	404,798 c.cs.
Meningococcal vaccine	3,289 ,,
T. A. B. Vaccine	17,207 ,,

	Sera.	Ampoules.
1.	Anti-tetanic Serum (prophylactic) 1,500 International Units, per ampoule of 1½ cc.	10,569
2.	Anti-tetanic serum (Curative) 20,000 International Units, 10 cc.	2,140
3.	Anti-diphtheria Serum (prophylactic) 1,000 International Units, 1 cc.	256
4.	Anti-diphtheria Serum (Curative) 10,000 International Units, 10 cc.	367
5.	Anti-dysenteric Serum 8,000 International Units, 20 cc.	817
6.	Anti-streptococcus Serum Polyvalent, 10 cc. ..	179
7.	Anti-meningococcus Serum, 10 cc.	77
8.	Anti-gas Gangrene Serum, 10 cc.	1,157
9.	Normal Horse Serum 5 cc.	43
10.	Normal Horse Serum 10 cc.	475

3. *Anti-rabic Section.*—During the year under report 14 new treatment centres were opened, and 7,226 anti-rabic treatments were issued. These figures may be compared with the 672 treatments issued during 1922, when the anti-rabic unit was opened. Increase in treatment is

probably due both to increase in dog bite cases and greater advantage being taken of the available and easily accessible facilities.

4. *Diagnostic Department.*—During the year, 10,738 specimens were examined by this department for various Government hospitals and dispensaries. The number of Wassermann reactions and Kahn tests carried out was 3,702 and 2,719 respectively. In addition to the routine work the department continued the inquiry into the outbreak of typhoid fever in the City of Bombay and suburbs.

During the year, 575 visits were paid by the medical officer to collect bloods and other samples at the request of the local medical practitioners, for the diagnosis of typhoid cases. Out of these 575 cases, 256 proved to be positive—223 being typhoid and 33 para-typhoid A. This service given gratis to the medical practitioners considerably improved the diagnosis as well as notification of cases in the City and suburbs.

The facilities of free examination of clinical material sent by registered medical practitioners in suspected typhoid cases have been extended to cover all the more important infectious diseases such as (1) Scarlet fever, (2) Whooping cough, (3) Diphtheria, (4) Cholera, (5) Dysenteries, (6) Plague, (7) Typhus, (8) Relapsing fever, (9) Cerebro-spinal meningitis and (10) Malaria.

5. *Biochemical Unit.*—It has continued to be increasingly useful to hospitals and medical practitioners for the varied examinations required in the diagnosis of the diseases.

6. *Department of Entomology.*—This new department when properly equipped with the necessary apparatus for carrying on researches in ecology and morphology of insects especially fleas should prove of great value. A collection of insect for the benefit of public health officers has been made. The department also attended to several requirements made for the identification of insects and snakes. Several samples of rat-traps and cyanogas foot pump dusters were examined on behalf of local bodies for manufacturers and suggestions for their improvement made. A large number of medical practitioners and sanitary inspectors were trained in the methods utilised for anti-plague work.

7. *Miscellaneous.*—(*i*) The Institute started making 25 per cent. glucose solution for the J. J. Group of Hospitals and from the middle of August up to the end of the year 5½ litres were supplied. This solution is being supplied at the rate of 8 as. per 100 cc. and will prove very economical and of a constant standard purity for the hospitals.

(*ii*) An open air Snake Farm was opened for housing the snakes which were formerly kept in metal boxes. The collection of Echis and Krait venoms would enable the preparation of anti-venin against these snakes. The Institute is now in a position to meet freely the requirements of cobra and other snake venoms.

8. *Researches.*—Researches in plague, pharmacology, entomology and experiments in the preservation of Toddy, the anti-mosquito measures and destruction of airborne bacteria were carried out.

9. The following table shows the receipts and expenditure of the Institute for the year 1939 :—

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as "State" when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State Dispensaries which are open to the poorer classes of the public. Class II are State Dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries whether maintained by State railways or others.

CLASS VII.—Comprises all subsidised dispensaries opened under the "Rural Medical Relief Scheme."
